SEEKS TO REDUCE PROBLEM BEHAVIORS

through the use of local, regional, and state data.

ADDRESS RISK AND PROTECTIVE FACTORS

by addressing community needs through the implementation of science-based strategies and programs.

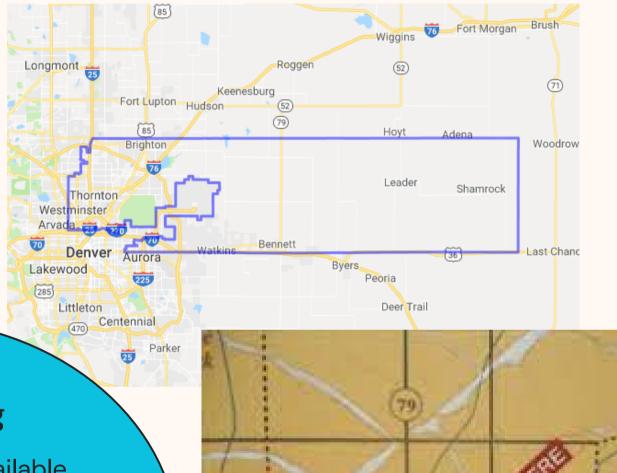

COMMUNITY AT THE FOREFRONT

The community needs to be at the forefront of every decision and action.

Community Profile, Pre-existing Structures, Knowledge, and Factors

Filling the Gaps

Gaps in services and partnerships in community health created a need for community-specific and community-owned service delivery.

Grant Funding

Funding was made available through Communities that Care as an opportunity to fill gaps in the community and expand focus on systems change and prevention.

Social Development Strategy (DS) and Positive Youth Development (PYD)

The lack of positive youth opportunities in the community and youth voice in systems created the opportunity for the introduction of PYD and SDS

Knowledge

Because they have the knowledge, community members serve their community best. Weaving Youth Engagement into Public Health

YOUTH **AS EQUAL** PARTNERS

POSITIVE YOUTH DEVELOPMENT

SOCIAL DEVELOPMENT STRATEGY

EQUITY

PREPARING TO ENGAGE YOUTH

DEVELOPING AN ACTION PLAN

EVALUATING YOUTH ENGAGEMENT

SUSTAINING YOUTH ENGAGEMENT

PYD is an **intentional**, prosocial approach that engages youth within their communities, schools, organizations, peer groups, and families in a manner that is productive and constructive; recognizes, utilizes, and enhances young people's strengths; and promotes positive outcomes for young people by providing opportunities, fostering positive relationships, and furnishing the support needed to build on their leadership strengths.
